

REMARKS

Applicants elect the Group I claims (1-8 and 22-28) without traverse.

In addition to electing the Group I claims, applicants have made certain minor amendments, which do not add new matter, and do not affect the grouping of the claims.

The amendment to claim 8 re-writes this dependent computer-readable media claim into independent form (and also clarifies that the claim is directed to "one or more computer readable media"). Claim 8 is essentially a computer-readable media form of method claim 1.

New claims 64-69 depend – either directly or indirectly – from rewritten claim 8. Claims 64-69 are essentially the computer-readable media forms of dependent claims 2-7. Thus, no new matter is introduced by the amendment, and since claim 2-7 are already within the scope of the election, claims 64-69 are also within the scope of the election, and do not change the nature of the search to be performed.

Applicants request examination of this case on the merits.
